

Fleet Cleaner

Fleet Cleaner is ideal for cleaning tools and for pre-treating (cleaning) metal and non-absorbent substrates before Fleet surfacing or waterproofing products are applied.

MATERIAL

Ethyl-acetate solvent

AREAS OF APPLICATION

- Highly effective
- Rapid evaporation

AREAS OF APPLICATION

Fleet Cleaner is used to clean/remove residue of Fleet products from tools. It is also used to clean metal and non-absorbent substrates before Fleet waterproofing and surfacing systems are applied. The Fleet Cleaner must never be used as a thinner for Fleet products.

PACKAGING

- Canister 10l

COLOURS

Fleet Cleaner is available in the following standard colours:

- Unpigmented

STORAGE

Store products sealed in their original airtight container and in a cool, dry and frost free place. Unopened products have a shelf life of at least 6 months. Direct sunlight on the containers should be avoided, including on site. After removing some of the contents, reseal the containers so they are airtight.

PRODUCT APPLICATION

The product should only be used in the open air or in well ventilated interiors. Seal the container again so it is airtight immediately after using the cleaner.

a) For cleaning tools

Tools should be cleaned thoroughly with the cleaner and a brush directly after they have been used for Fleet liquid products. Simply immersing the tools in the cleaner will not prevent the material from hardening.

b) For cleaning metal and non-absorbent substrates

pour Fleet Cleaner onto a lint-free cloth and rub down the surfaces. The cleaner must have dried completely before Fleet products are applied. The above information, especially information about application of the products, is based on extensive development work as well as many years of experience and is provided to the best of our knowledge. However, the wide variety of requirements and conditions on site mean that it is necessary for the product to be tested to ensure that it is suitable for the intended purpose. Only the most recent version of the document is valid. We reserve the right to make changes to reflect advances in technology or improvements to our products.
