

Fleet Deco Chips

Fleet Deco Chips are toppings specifically designed for **Fleet Finish** products. They offer design options for the finished surface, while also optimising its non-slip property.

MATERIAL

Acrylate-based topping

PROPERTIES AND ADVANTAGES

- Receiver-compatible topping chips
- Can be used as a single colour or multiple colours

AREAS OF APPLICATION

Fleet Deco Chips are applied to the sealing layer to enhance the appearance of the finish and enhance the nonslip properties of the surface. A non-slip level of up to R10 can be achieved.

PACKAGING

- 1.00kg in tub

COLOURS

Black, White and Grey

STORAGE

Store the chips in a cool and dry area

CONSUMPTION

Up to 50g/m² depending on the desired appearance

PRODUCT APPLICATION

APPLICATION EQUIPMENT / TOOLS

Hopper spray gun

01202 785 200

APPLICATION

Use the hopper spray gun to apply Fleet Deco Chips to the sealer while the coating is still wet. Depending on the required design of the surface, the coloured chips can first be mixed and a greater or lesser amount applied. However, applying an excess quantity should be avoided, i.e. in their final position the chips applied should not form a continuous coating at any point.

The above information, especially information about application of the products, is based on extensive development work as well as many years of experience and is provided to the best of our knowledge. However, the wide variety of requirements and conditions on site mean that it is necessary for the product to be tested to ensure that it is suitable for the intended purpose.
